SECTION 16: Other information

Revision	Version 1.1 — Eco Candle Project edition, 09/11/2026. Based on the manufacturer's SDS for the pure fragrance (version 1 of 06/05/2025, issued 23/04/2026), allergen declaration and IFRA 51st Amendment certificate (23/04/2026). The manufacturer declares exact component concentrations; the calculation reproduces the manufacturer's classification of the pure fragrance (H317, H412). The manufacturer has not issued SDSs for diluted preparations — the classifications of the diluted preparations were calculated by Eco Candle Project with the CLP calculation method. Changes from version 1.0 (24/10/2026): the manufacturer's UFI of the pure fragrance (UMA2-H0MC-1006-PT6S) has been added (Sections 1 and 15). Composition, classification and IFRA limits unchanged.
Abbreviations	ATE = Acute Toxicity Estimate; UFI = Unique Formula Identifier; PCN = Poison Centre Notification; SCL = specific concentration limit; SVHC = Substance of Very High Concern.
