SECTION 16: Other information

Revision	Version 1.0 — Eco Candle Project edition, 28/10/2026. Based on the manufacturer's SDS for the pure fragrance (version 2.0 of 02/04/2024, issued 02/04/2024), allergen declaration and IFRA 51st Amendment certificate (02/04/2024). The manufacturer declares component concentrations as ranges; the classification was calculated conservatively using the upper limit of each range (for benzyl benzoate, coumarin, α -methylcinnamaldehyde, anisaldehyde and OTNE this coincides with the exact values of the manufacturer's IFRA certificate), which reproduces the manufacturer's classification of the pure fragrance (H315, H317, H319, H411). The allergen declaration gives linalool at 9.81% in total (including linalool naturally present in lavandin oil and other natural materials), above the 8.62% declared for added linalool in section 3. The 10% and 25% preparations are consistent with the manufacturer's SDSs for those dilutions (H412; H317, H412). For the 5% preparation the manufacturer's SDS indicates no classification (EUH208 only); Eco Candle Project classifies it Aquatic Chronic 3 — H412, because with the exact concentrations of the manufacturer's IFRA certificate (OTNE 3.25%, α -methylcinnamaldehyde 1.40%, Aquatic Chronic 1) the CLP summation $100 \times \text{Chronic 1} + 10 \times \text{Chronic 2} + \text{Chronic 3}$ already reaches 25% at 5% dilution even with the lower limit of every other range ($\approx 25.6\%$; $\approx 26.8\%$ with upper limits). Eco Candle Project retains the more protective classification. The IFRA Category 10A limit (4.22%) does not allow a 25% reed-diffuser preparation; the diffuser SDS is therefore issued for 4% in Augeo Clean Multi. Classification of the 4% preparation calculated by Eco Candle Project.
Abbreviations	ATE = Acute Toxicity Estimate; UFI = Unique Formula Identifier; PCN = Poison Centre Notification; SCL = specific concentration limit; OTNE = tetramethyl acetyloctahydronaphthalenes; HHCB = hexamethylindanopyran; SVHC = Substance of Very High Concern.
